

ARE YOU COVERED?

Don't let your EIP expire. Renew every year. Talk to your case manager.

ARE YOU COVERED?

The Early Intervention Program (EIP) is Washington State's AIDS Drug Assistance Program. This program helps eligible people pay for HIV-related medications, HIV medical care and dental services, as well as health insurance premiums through EHIP.

If you are enrolled in EIP, you need to renew every year. If you miss renewing on time, you will lose EIP coverage until you reapply. This delay can make it hard for you to fill your prescriptions, see your doctor, keep your insurance and stay healthy. Life is complicated enough when you have HIV. Keep it from getting more complicated. Renew on time.

EIP will send you a renewal notice about six weeks before your eligibility ends, so make sure to tell them when your address changes.

Are you covered? Renew on time. Talk to your case manager or contact EIP toll-free at 877-376-9316.

Public Health
Seattle & King County 

This project was developed by the Ryan White Part A Quality Management Program at Public Health—Seattle & King County. Funding for this project has been made available as a result of grant awards from the US Department of Health and Human Services, Health Resources and Services Administration. Design by Jodie Eilers, Ramsay Cookman, Yaël Pouffary, and Quintin Cooke.
